FCS Career Pathways

Family and Consumer Sciences (FCS) is a powerful field that helps people improve their daily lives through knowledge and skills in areas like food, family, health, finance, design, and education. What many students don't realize is that FCS offers diverse career pathways that are in high demand — and make a real difference.

1. Hospitality & Culinary Arts

Do you enjoy cooking, baking, or planning events? Careers in this pathway center around food service, nutrition, and hospitality.

Careers include:

- Chef or Pastry Chef
- Caterer
- Restaurant Manager
- Food Stylist
- Hotel or Event Planner

2. Education & Human Services

If you love helping others — especially children or families — this pathway may be for you. These careers focus on development, care, and support across the lifespan.

Careers include:

- Preschool Teacher
- Child Life Specialist
- Social Worker
- Family Therapist
- Parent Educator

3. Consumer Services & Personal Finance

Are you interested in budgeting, saving, or advising others? This pathway focuses on helping people manage their money, time, and resources wisely.

Careers include:

- Financial Advisor
- Credit Counselor
- Consumer Advocate
- Housing Counselor

FCS teaches real-life money management skills, for life and for careers!

4. Interior & Housing Design

Do you enjoy decorating or organizing spaces? This creative pathway blends art, design, and functionality.

Careers include:

- Interior Designer
- Home Stager
- Housing Manager
- Set Designer

In FCS, you learn to create beautiful, safe, and functional living environments.

5. Apparel & Textile Design

Fashion-forward? This pathway is all about clothing construction, design, and merchandising.

Careers include:

- Fashion Designer
- Costume Designer
- Textile Scientist
- Retail Buyer

6. Nutrition & Wellness

Want to help others live healthier lives through food and lifestyle choices? This science-based pathway is growing fast.

Careers include:

- Dietitian or Nutritionist
- Health Coach
- Wellness Program Director
- Public Health Educator

FCS courses teach how food impacts our body, energy, and overall health.

Reflect

- Which FCS pathway interests you the most, and why?
- List a job in the reading that you have never heard of.
- What is one career you'd like to learn more about?
- List one or more careers that you would not be interested in. Why?
- How can FCS classes help you prepare for your future? Be specific.
