Teacher Directions

In this project, students will research an FCS-related career and create a trifold brochure to show what they learned.

It's a creative way to explore jobs in pathways like culinary arts, education, design, and human services.

How to Use:

1. Assign or let students choose a career in an FCS pathway.
2. Students complete the brochure using research and reflection.
3. Use double-sided printing and fold into a trifold.
4. Optional: host a gallery walk or quick presentations.

Classroom Notes

- Can be completed independently or with a partner
- Suitable for middle and high school
- Easily adapted for one or two class periods

Gallery Walk

Post completed trifolds around the room. Students circulate and review at least 4 different careers. Use as a formative assessment, discussion starter, or closing activity.
